COMPILED FOR THE USE OF THE TRADE.

BETTS & RADER, Publishers,

W. B. BETTS.
T. J. RADER.

218 WATER STREET, NEW YORK.

T 5 12
.B

Entered according to Act of Congress, in the year 1885,
By Betts & Rader,
In the office of the Librarian of Congress, at Washington, D. C.

C. G. Crawford, Printer and Stationer, 49 & 51 Park Place, N. Y

TO THE TRADE.

The compilers of the "*Stove Index*" desire to call your attention to some facts regarding it. It is plain to every stove man that a work of this kind has long been needed, owing to the large increase of stove makers, and the vast numbers of different names of stoves, as well as the changing hands of patterns, all of which we give a full and minute account. In preparing this work a large amount of time, labor and money has been expended in obtaining the desired information. It is possible some errors have occurred, but as all the lists (with a few exceptions) have been furnished by the manufacturers themselves, they should be correct. All possible care has been used by us, and we are confident it could not have been done better.

To those who have been so kind as to furnish us their lists, and have given us information about defunct stove concerns and their successors, we are under many obligations, and would extend our most sincere thanks.

Very respectfully yours,

BETTS & RADER,
Compilers and Publishers.

IN ORDERING REPAIRS

we would say that most of the stoves are for both coal and wood. If for wood only, say so.

BE VERY EXPLICIT,

give name of stove, date, and who made by. If *stove* or *range*, whether plain, duplex, or any other patent grate, shaking or dumping grate, broiling door or not. Parlor stove, whether it shakes in front, side or back, one or two rows of mica, surface or base burner.

INDEX TO ADVERTISEMENTS.

MICA HEADQUARTERS MUNSELL, ROLLO & CO., 218 Water St., New York

ESTABLISHED 1858.

PRINCE'S METALLIC PAINT.

WILL NOT
Fade,
Chalk,
Scale or
Crack.

TRADE MARK.

DOES NOT
Cost One Quarter
AS MUCH AS
LEAD PAINT.

TIN ROOFS should ALWAYS be painted with Prince's Metallic Paint.

7 lbs. of Dry Paint and 1 gallon of Linseed Oil will cover 500 square feet of iron, tin or planed wood.

But One Color Made—Brown.

Price for Dry Paint $5.25 for 300 lb. bbls. and 50 cts. cartage.

Roofing Cement is made by mixing Prince's Metallic Paint into a stiff paste with Boiled Linseed Oil, and a little Cottonseed Oil to keep it soft.

FOR SALE AND MANUFACTURED **ONLY** BY

THE PRINCE M'F'G CO.,

71 MAIDEN LANE, NEW YORK.

Every package has OUR TRADE MARK upon the end, and our name and address on the side.

DIXON'S EX. EX. PLUMBAGO FACING JOS. DIXON CRUCIBLE CO., JERSEY CITY, N. J.

WAUKESHA GLENN MINERAL SPRING

The only Spring in Waukesha that remains at one temperature both summer and winter (i. e., 48°).

It is guaranteed to CONTAIN MORE MINERAL SALTS than any other Waukesha Water, and fully establishes the fact that it flows from the Maximum Mineral Fountain of Waukesha Springs, and is, in the opinion of the most eminent medical men, NATURE'S SOVEREIGN CURE for

CONSTIPATION, DYSPEPSIA, TORPID LIVER,

INACTIVE CONDITION OF THE KIDNEYS,

AND A MOST SALUTARY ALTERATIVE IN SCROFULOUS AFFECTIONS.

THE water of the Waukesha Glenn Mineral Spring, of Waukesha, has acquired a reputation for purity and excellence among visitors at Waukesha, dealers in Mineral waters everywhere, hotel proprietors, and at all first-class restaurants, unattained by any other water extant. These qualities, possessed in so pre-eminent a degree by the water of the Waukesha Glenn Spring, commend it to all who seek a pure water, free from any unpleasant taste, as a beverage at or between meals—in short, as a substitute for the ordinary drinking waters which contain so much organic matter, and hence are very objectionable. This water, by its great purity, attested by all who partake of it, is fast becoming the favorite table water in the best families, while eminent chemists and physicians testify to its superior qualities every way. Visitors to the Spring concur with them in acknowledgment, not only of its excellence as a beverage, but of the benefits derived from its use medicinally, many of them having used the waters in its vicinity and other localities without avail. Here they possess an antidote and cure for their ills that is remarkable, and that invariably causes them to express surprise at its effects. Many who have been compelled to drink the disgusting sulphureted hydrogen waters of other localities until nature revolted at the unbearable imposition, as shown by involuntary contortions and grimaces that defy description, and with expressions of detestation more forcible than nice, are delighted here to find a bland, pleasant, pure water, yet so constituted as at once to prove a blessing in its immediate medicinal effects, and as pleasant as nectar to imbibe.

The diseases that are the most distressing, terrible, and suddenly and certainly fatal, the highest authorities in medical science tell us, are those that originate in a faulty condition of the kidneys. If the kidneys fail to perform their functions, the blood becomes surcharged with disease-producing and death-dealing substances that should have been secreted therefrom and excreted through the urinary channels. If the functions of the kidneys fail, uric acid is retained, and causes rheumatism, gout, and other painful diseases, dyspepsia, vertigo, or dizziness, dimness of vision, etc. Failure to perform their functions also results in renal and cystic stone, the former producing the most agonizing colic, the latter requiring the most painful and dangerous operations to relieve, when it can be done at all. Dropsy, heart troubles, diabetes and albuminuria are still more fatal forms of kidney disease. How important then, that we select with care the water we drink, with due regard to its purity, that these diseases may be prevented, or, having contracted them, that we lose no time in securing the best possible means for their alleviation and cure. That the waters of the Waukesha Glenn Spring possess these remedial qualities in an extraordinary and remarkable degree no one will for a moment doubt who will take the trouble to investigate, and the proprietor offers you every aid in this direction, by examination of the extended list of letters gratefully acknowledging the benefits received by the use of these waters, and also the gratuitous use of the waters at the Springs. Many people of the highest respectability, in all parts of the United States, attest to the cure of themselves and others by the use of this delicious beverage, even very many that have been pronounced far gone with diabetes and Bright's disease.

"The dangerous qualities of contaminated drinking water are not obviated by the addition of wine or spirits."—*Medical Officer of Privy Council, Eng'and.*

"PURE WATER IS EVEN MORE IMPORTANT THAN PURE MILK."—*New York Herald.*

The waters from wells, in all densely populated regions especially, but in most places, are obnoxious on account of the organic matter they contain, as the result of decaying vegetable and sometimes animal matter, and seepage from foul sources near them, often producing the most terrible diseases, simulating typhus and septicemia, or blood poisoning; while those from rivers, creeks and lakes, supplying large cities and towns, seldom even approximate purity, and are, no doubt, the cause of the comparatively greater death rate and unsanitary conditions of such places over those of the country generally. The shores of many of these streams and bodies of water are frequently lined above and around for miles with factories and small towns, from which issue vast quantities of sewage that cannot fail to have a deleterious effect upon the health of all who partake of these waters. Many, conscious of this fact, seldom take a glass of water, or if they occasionally do, use wine or liquor in it. They use tea and coffee, hoping that as the water is boiled in making these decoctions they thus escape, but do not realize that in partially avoiding one danger in this manner they are sure to meet with others. The increasing appetite for these stimulants leads to injurious excess, while the absence of pure living water in generous quantities is most positively inimical to health. A hint to the wise may be sufficient. Those who possess well-rounded forms are addicted to the free use of wholesome water. Let the man of business, the man of sedentary and studious habits, the nervous and irritable man, the judge, lawyer and juryman, and he who is too late for dinner or cannot take time for lunch, drink freely of pure, wholesome water, and they will experience such relief, tone and vigor, as has not been "dreamed of in their philosophy."

Try it, but be sure, if possible or within reach, to get the very best of Waukesha's waters, which is beyond all controversy the justly celebrated Waukesha Glenn Waters.

Many invalids now suffering from various chronic ailments will be benefited if they will discard their stimulants and toxics and take to the free use of these waters, while those afflicted with Bright's disease and diabetes especially, or any form of kidney difficulty, have the assurance, from the testimony of those who have been cured, that should warrant them in setting aside all doubt and resorting at once to the source that is so full of promise. It is especially important at this time, when that dreadful disease, CHOLERA, is apprehended, that all possible precaution be taken in regard to the water we drink. THE WAUKESHA GLEN WATER IS POSITIVELY PURE AND DELICIOUS.

With ladies, gentlemen and *bon vivants* everywhere, this water has become the standard of dietary expedients, fortifying the digestive functions and enabling free-livers to indulge with impunity at table. The world of wealth, intelligence and refinement testifies to its sparkling, naturally pure and delightful qualities as the beverage incomparable, and accredits it with being the surest and speediest source of clear complexions, high health and exuberant spirits.

ADDRESS

T. H. BRYANT, WAUKESHA, WIS.

Waukesha is a most delightful SUMMER RESORT on the Chicago, Milwaukee & St. Paul Railway.

THE ONLY PURE WAUKESHA WATER

— IS THE —

WAUKESHA GLENN

THE WELL-KNOWN "QUEEN OF WATERS."

Reigns alone among Natural Dietetic Table Waters. Its numerous competitors appear to have, one after another, fallen away, until it has no rival. The only Spring in Waukesha that remains at One Temperature, both Summer and Winter—*i. e.* 48°. The WAUKESHA GLENN NATURAL MINERAL WATER issues from a spring deeply imbedded in a rock, and is THEREFORE OF ABSOLUTE ORGANIC PURITY.

What the Highest Authority in N. Y. City says.

CERTIFICATE OF ANALYSIS.

LABORATORY OF THE SCHOOL OF MINES, COLUMBIA COLLEGE,
NEW YORK, November 10,

SIR The sample of Mineral Water from Wisconsin, marked "Glen Mineral Spring," submitted to me for examination, contains in one U. S. gallon of 231 cubic inches:

Chloride of Sodium	1.1944 grains	Bicarbonate of Soda	0.7594 grains
Sulphate of Potassa	0.4848 "	Phosphate of Soda	0.0084 "
Sulphate of Soda	0.6212 "	Alumina	0.0466 "
Bicarbonate of Lime	15.9764 "	Silica	1.0497 "
" of Magnesia	12.5795 "	Organic Matter	1.2160 "
" of Iron	0.0566 "		
			34.0230 grains

This water appears to be identical with the Bethesda Water as it was before the Glenn Spring was created by tapping the Bethesda stream.

Respectfully, your obedient servant,
C. F. CHANDLER, Ph. D.,
Professor of Analytical and Applied Chemistry.

THE WAUKESHA GLENN SPRING was created by opening a new outlet for the Bethesda stream, since which time it has caused the flow from the Bethesda Spring in dry weather to be almost exhausted, thereby rendering the Bethesda Water comparatively worthless, as shown from four analyses by Prof. C. F. Chandler, and other positive proofs.

THE GLENN MINERAL WATER is the only diuretic water known in the world which acts directly upon the secretions of the liver, kidneys, urinary and generative organs, and is Nature's Sovereign Remedy for that numerous class of diseases that afflict the human family—and as medical statistics show us, comprise over one-half of those which terminate life.

This water WILL KEEP fresh and sweet, tasting neither stale nor flat, and IS THE ONLY MINERAL WATER FROM WAUKESHA THAT WILL KEEP, which is positive evidence of its superior medicinal properties.

For about two years I have been troubled with my liver, resulting in loss of flesh from my usual weight of 170 pounds down to 120, with a sure prospect of a final end in a very few months—so all the doctors said. Finally I concluded to try Glenn Spring Water that you shipped me from the springs. For two months the effect was more than astonishing, from death (sure) to life. It was wonderful. June 1st I was able to take the road again and have not lost a day since, getting better every month, gaining from 120 to 165 pounds. Those who saw me last winter did not expect me to live till July, and will now testify that all I say, and even more, would be true. May the Glenn Spring continue to run pure water forever and ever.

D. W. C. HOUSE,
Kansas City, Mo., Moline Plow Co.

PHILADELPHIA, August 6.

DEAR SIR—It is with great pleasure that I have to inform you of the wonderful effect the water from your springs has had upon my wife, who was unable to leave her room with chronic Bright's Disease. It seemed to affect every part of her body with pain, and sleepless nights, so that the doctor gave no hopes of her; but since drinking of the Glenn Mineral Water she has not only been able to leave her bed and room, but to take long walks of one and two miles, and is fast improving in health and strength We have now done away with all other remedies, only using the water, which keeps perfectly sweet in the manner you put it up. You will please send me at once another barrel.

Yours respectfully, JOHN RESTEIN.

---

48 HATHAWAY ST., CINCINNATI, April 22.

DEAR SIR—Enclosed you will find check, for which you will please send me two barrels Glenn Water. I have several customers who have received substantial benefit from the use of the water, and as for myself, I think I am entirely cured of my kidney trouble, after five years' affliction. The water I bought of you last summer is just as clear and sweet now as water that I drank from your spring when I was there, while all the Bethesda Water in this market is off in color and stringy in substance.

Yours truly, THOS. VAN NAME.

OVID, MICH., Sept. 6.

DEAR SIR—The half barrel of Mineral Water I ordered for Mr. Shattwack has helped him amazingly. For several months he has had to use a catheter, but that necessity was entirely removed after using the water a few days. As regards my own case, I would say that I am about cured of Bright's Disease. You will please ship me another barrel; it is for Mrs. J. Skerritt, of Victor.

Yours truly, W. HATHAWAY.

CLEVELAND, O., July 5.

DEAR SIR—Please send one barrel of the Glenn Mineral Water to each of the following addresses. My friend, Mr. Sellors, has found so much benefit from the water I ordered for him that he tells me he has ordered another barrel, and has just received it, and I am happy. I am feeling tip-top, and am a living advertisement of your excellent water.

Yours truly, W. WILSON.

AMES, N. Y., August 24.

DEAR SIR—Send me another barrel of water. It is for a neighbor, Mr. B. Mount. I let him have ten gallons from my barrel, and it helped him more than two years of treatment from the most skillful doctors of the Mohawk Valley.

Very truly, SAMUEL STEVENS.

Please forward me, as before, one barrel Waukesha Glenn Water. The Waukesha Glenn Water is the best in the world, and my physician says, the greatest. It is deserving of all praise.

GEORGE H. PEABODY,
118 East Eighteenth street, New York.

BOSTON, MASS., July 12.

DEAR SIR—Please send me five barrels of Glenn Water. People here are learning the merits of Glenn Water. I like the water better the more I know of it.

Yours truly, JOHN SULLIVAN.

These, with thousands of other actual cures and benefits, ought to convince the most skeptical. The medical profession, without exception, indorse and prescribe it with the CAUTION TO AVOID the more harsh spring water, and also those containing SALT in imitation of foreign waters.

THE WAUKESHA GLENN is the only specific known for the hitherto incurable diseases—Diabetes, Bright's Disease and all Kidney Affections. It has been tested by thousands whose unsolicited testimonials are open to the public, and furnished to all who desire, MAILED FREE. Address,

T. H. BRYANT, Waukesha, Wis.

DIXON'S FOUNDERS' CORE WASH JOS. DIXON CRUCIBLE CO., JERSEY CITY, N. J.

The representative Stove,

Tin and Hardware

Journal

DANIEL STERN, Proprietor.

The American Artisan

Tinner and

House Furnisher.

WHAT THEY THINK
OF THE
AMERICAN ARTISAN.

The following are only specimens of hundreds of letters received from patrons expressing the high degree of favor with which this journal is received:

From Wm. Cornell & Son, Denver, Dak., June 10, 1885: "We consider the AMERICAN ARTISAN worth to us several times the cost during the year. In fact, we would not be without it if the price was five dollars instead of one dollar a year."

From A. S. Ruark, manufacturer of roofing, spouting, etc., and dealer in hardware and stoves, Carlinville, Ill., June 4, 1885: "The AMERICAN ARTISAN is the most valuable paper of its kind I have ever seen, and to a man in my business is indispensable."

From W. E. Griffiths, Ft. Wayne, Ind., April 6, 1885: "I consider that your paper fills the wants of thousands of hardware and stove dealers better than any other, as all others I have seen require two papers to cover the same ground yours does with one."

The AMERICAN ARTISAN, of Chicago, improves with every issue. It is an able and attractive representative journal of the stove, tin and house-furnishing trades. It abounds in technical and trade information."—*American Machinist*, New York.

From John McKinney, Piper City, Ill., June 15, 1885: "Would not be without the AMERICAN ARTISAN for $10 a year."

From Henry Sauer, Morrison, Ill., June 15, 1885: "I will add one more to the already long list of testimonials for the AMERICAN ARTISAN, by saying that I consider it indispensable to any dealer in hardware, stoves and house furnishing goods who wishes to keep posted on what is going on in the trade. A man who does not subscribe after receiving sample copies is blind to his own interests."

From Crea, Graham & Co., stove manufacturers, Pittsburg, Pa., April 10, 1885: "The AMERICAN ARTISAN is certainly one of the brightest and best trades papers published—interesting, instructive and a good advertising medium."

The AMERICAN ARTISAN is certainly the most elegant publication of its kind in this country, if not in the world.—*Farmer and Manufacturer*, Cleveland.

THE AMERICAN ARTISAN
COST PRICE LIST OF TINWARE

is presented free to every new yearly subscriber to the AMERICAN ARTISAN. It gives the cost at a glance of manufacturing over 100 articles of tinware, with stock and labor at any prices. How highly it is esteemed by the trade is shown by a few out of scores of similar testimonials:

From R. W. Folsom, Waverly, N. Y., June 2, 1885: "I received Cost Price List all right. It is an excellent thing, and worth more than a dollar. I showed it to an old tinner who has had twenty-five years experience at the bench, and he said it is the best thing of the kind he has ever seen. It should be in every tinshop."

From F. H. Wonderly, Wichita, Kan., May 10, 1885: "I have received the AMERICAN ARTISAN'S Cost Price List of Tinware, and viewing it from a practical tinner's standpoint, I deem it a very valuable, accurate guide, in instantly determining the cost of shop-made ware. To a firm running a tinshop—who are not practical tinners themselves—this list is really indispensable, and cheap at $5 per copy. Every live, progressive tinner should need no urging to purchase it."

From F. L. Stanfield, Nevada, Mo., May 5, 1885: "I received your Cost Price List of Tinware, and think it the finest thing of the kind I ever saw."

From F. C. Hesse, Cincinnati, O., May 25, 1885: "The AMERICAN ARTISAN Cost Price List received. I find it to be the completest work of the kind that has yet come under my observation. Tinners in business, and those contemplating going into business, should not fail to supply themselves with a copy. It is especially useful for country tinners, few, if any, of whom conduct an estimate cost book of their own, for the reason that it is a most laborious work to perform. With a copy of a Cost Price List at hand they are enabled to find the cost of any article in a very short time, and with very little laborious figuring, as would be the case without it."

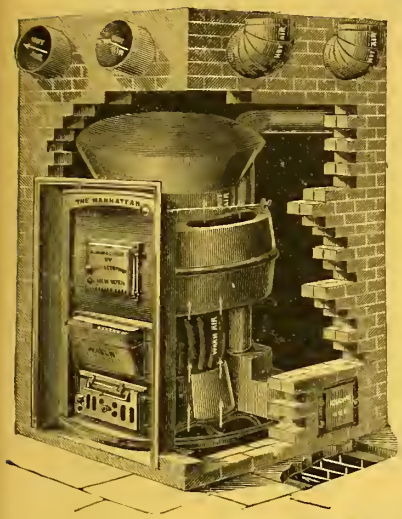
—UNEQUALED—



OUR

SPECIALTIES

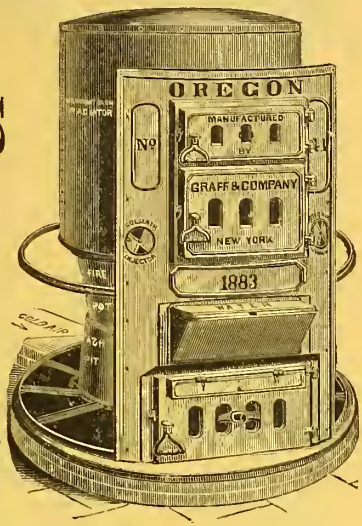
FOR

1885

WE DO NOT

Follow Others,

BUT ARE



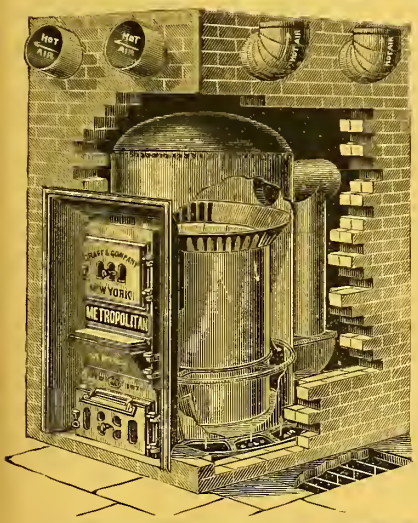
LEADERS

IN THE MANUFACTURE OF

Warm-Air Furnaces and Fire-Place Heaters

Our assortment is the largest in this or any other country, and for every requisite in Heating Apparatus

CANNOT BE MATCHED!



It will pay any dealer wishing to get

THE BEST FURNACE OR FIRE-PLACE HEATER

to spend a little time in examining either our goods or circulars before purchasing.
